- **Organized meeting** for all disciplinary Facilitators.
- **Provided in-depth constructive criticisms** for assets and sound effects.

February 2022-

December 2022

PERSONAL PROJECTS

Capstone Project

- A culmination of all my skills when it comes to modeling, sculpting, texturing, rigging, and animating. Everything in the project was made from scratch and done in a variety of programs such as AutoDesk Maya, Adobe Substance Painter 3D, Marvelous Designer, and ZBrush.

January 2025-

May 2025

Frogmageddon

- A bullet heaven game where you play as a frog defending your nation against a wave of snakes. I am the lead artist on the project and most of the assets and animations are done by me. This game was created for the GTMK 2024 Game and is set to be released on Steam.

August 2024-

Now

Uh Oh, AI!

- A match three mobile games where you play as a robot going through art school. I created all the character animations and made a variety of assets. This game was created with the help of the MassDigi team and is available now on the App Store and Google Play.

May 2024-

August 2024
