EDUCATION

Bachelor of Fine Art in Game Art and Animation, Dean's List

Sep 2021 – May 2025

Northeastern University

Relevant Course Work: Game Concept Development, Character Design, Animation 3, *Game Studio*

PROFESSIONAL EXPERIENCE

CO-OWNER/LEAD ARTIST

[Frogmageddon](#) | Boston, MA

Aug 2024 – Present

- Co-created a 2D bullet-heaven game in 96 hours for GMTK 2024 Game Jam, ranking 60th out of 7,500+ entries and generated 1,000+ Steam wishlists pre-release.
- Established the game's entire visual identity, creating 100% of animations, in-game assets, and Steam marketing/achievements.
- Co-founded Frog Mage Udon LLC to publish [Frogmageddon](#).

LEAD DESIGNER/ARTIST

[MassDiGi](#) | Boston, MA

May 2024 – Aug 2024

- Shipped mobile game "[Uh Oh, AI!](#)" to iOS and Android in eight weeks, collaborated across design, programming, and art disciplines to meet publishing standards.
- Established all character animations, concept art, and background art based on the game's distinct theme and stylization.
- Conceptualized and edited the [official launch trailer](#), increasing store page visibility; also produced 2+ promotional trailers for other student teams.

2D & 3D ARTIST

[Sabrefish Studios - Habit of Force](#) | Boston, MA

Jul 2023 – Dec 2023

- Conceptualized art for six mech factions, following the visual foundation for the game's art direction.
- Modeled, textured, rigged, and animated six fully functional mechs, contributing to varied gameplay and immersive combat experiences.
- Established modular terrain and UI assets, reduced level design asset turnaround and streamlining production pipelines.

ASSETS FACILITATOR

[Games @ Northeastern Studio](#) | Boston, MA

Feb 2022 – Dec 2022

- Coordinated asset production across a 60-person development team, hosting weekly reviews for the Art and Sound disciplines to maintain consistent quality and pipeline efficiency.
- Streamlined cross-disciplinary collaborations by organizing and leading inter-facilitator meetings, resolving integration issues between design, programming, and art teams.
- Delivered high-quality 2D assets (Save Point, platforms, railings, backgrounds, and splash art), directly contributing to the final production draft of "[What Remains of Me](#)".
- Improved asset delivery workflows, ensuring on-time completion of key environment and UI assets while supporting a large-scale, student-led production.

PROJECTS

[CAPSTONE PROJECT](#)

Jan 2025 – May 2025

- Established a complete 3D environment and character pipeline from scratch, showcasing end-to-end skills in modeling, sculpting, texturing, rigging, and animation.
- Designed 15+ original assets (characters, props, and environments) using industry-standard tools including Maya, ZBrush, Substance Painter, and Marvelous Designer.
- Achieved production-quality results by optimizing assets demonstrating proficiency in both game-ready and cinematic workflows.
- Constructed a portfolio-ready project that integrates multiple disciplines, highlighting adaptability and technical expertise across 4 major software packages.

KEY SKILLS

- Programs: Adobe Creative Suite | AutoDesk Maya | ZBrush | Adobe Substance Painter 3D | Unreal Engine | Unity
